Environmental Policy 14001

Guildprime Specialist Contracts Ltd is a professional and environmentally conscious Company which acknowledges the impact that our operations may potentially have on the environment and are proud members of the B1G1 giving for good project.

2. Aims and objectives

- The Company fully commits to:
- Environment sustainability through our activities both directly and indirectly.
- determines compliance obligations and ensure our operations are completed in accordance with them.
- continually improve the environmental management system to enhance environmental performance.
- We have established a set of objectives, with associated programmes for implementation and maintain an environmental management system follows compliance with ISO 14001: 2015
- To offset an employee's monthly carbon emissions, we have planted trees around the world, rescued food and provided months of access to solar lamps to families in need. When we complete a project, we plant 50 fruit trees for families in Kenya. When someone reacts to our LinkedIn posts, we give 1,600 days of access to clean drinking water for people via solar powered reverse osmosis. When we secure a new Client, we plant 20 trees in the world.
- Correct non-conformities.
- Allocate suitable and sufficient resources which enable the company to achieve its environmental aims and objectives.
- Prevent pollution by reducing vehicles and journeys, use external ISO accredited companies that recycle and dispose in an environmentally safe way. Replace Company vehicles with electric ones.
- Use non plastic based materials for packaging where possible, increase usage of recyclable materials for this purpose.
- Consider the effects that our operations may have on the local community by operating within the times allocated by the local authorities.
- Actively advise clients of possible locally sourced materials and products to reduce overall carbon footprint of projects.
- Take action to eliminate or reduce, as far as practicable, any potentially adverse environmental impacts.
- Promote environmental awareness amongst our suppliers, contractors and partners by the implementation of operational procedures and practices.
- Complete internal audits and follow a path of continuous improvement.
- Ensure that Directors and management are fully engaged in the management of environmental issues.
- Seek to work in partnership with the community by behaving in a considerate and socially responsible manner.
- Ensure effective and expedient incident control, investigation and reporting methods are used.
- Directors, management and supervisory staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work. All employees and subcontractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment-related matters.

- Paul Hack Managing Director has overall responsibility for environmental matters.
